I made the mistake of chipping ice from bluestone steps and left small chips and scratches. Although I would guess that the whitenss of the scratches will fade, is there anything I can do to smooth them out? Thanks.

Dear Bill:

“Although I would guess that the whitenss of the scratches will fade”

Yes, you guessed it right.

And therefore! just learn how to live with them!

You will get more and more. So what? It is stone installed outdoors for crying out loud! J
