Pls advise if you shower care mildew cleaner can be used on a shower with tumbled marble 2 x 2 tiles on the floor. They had been sealed

Dear Kathy:

â€œ They had been sealed â€•

Have they now?... And, just out of curiosity, may I ask you why?

I asked the same questions only the gods know how many times, but so far nobody was ever able to give me a sensible answer, other than vague responses, such as, â€œWell, they told me that it had to be sealedâ€• or, â€œFor protectionâ€• (But nobody can tell me from what they have to â€œprotectâ€• their stones in a shower stall, especially a dense stone like marble!)â€• Ah, the magic in the world sealer!! J

Be that as it may, MB-9 can be used on any kind of stone and it doesn't really care if it sealed or not.

And neither does the stone!... Actually, it might just mind: it is never a good idea to apply an impregnator (oops, I'm sorry for the slip: I meant a â€œsealerâ€•) to a stone installed in a wet environment.

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
