Will slabs of Onyx be ok to put in the shower and on the counter top in the bathroom? If so what maintenance will be required? Thank You, Wil (Tampa)

Dear Wil:

Yes. Eventually, especially in the shower enclosure, the stone will lose its shine and require restoration, but being in a slab form and all, it is not too difficult a job to do.

Just make sure that the stall is installed properly! That is vastly more important than the stone itself!
