I have the above in my bathroom and it has a slight white spray mark that will not come off. it looks as if it was being cleaned but the spray mark will not wipe off. I believe that it may have been cleaned with vinegar and water. Any suggestions on repairing and do you have a good cleaning product for it? thank you Donna

Dear Donna:

Do you think it would be possible to take a scratch out with a cleaning product?

The water and vinegar concoction (or whatever was used to "clean" your marble) has etched the surface of the stone permanently (it's a mark of corrosion "like a shallow, wide chemical scratch).

If the etch-mark that you have is limited in size, you should be able to fix the damage with a good quality Marble Repair Kit. But if it is a little bit all over, then your only option is to hire a proven stone restoration contractor.

Now, how about learning how to take care of your stone? By logging into the Helpful Hints section of our website at: http://www.mbstone.com/HH_promo/helpful_hints.htm, you will be able to get the short version of our maintenance guidelines at no charge. The full version of it "a 7-page document considered by many as an industry benchmark" is available in pay-per-download format in our Educational Literature section at: <http://www.mbstone.com/literature/literature.htm>.

And remember, every single penny of the cost of the literature will be used to support this site and its cause: **your** cause.

While you are in the "Helpful Hints" section, do spend some time reading all of the interesting FREE articles you'll find in there!

Finally, keep in mind that we need your support to help us helping you!
