Saved From: <https://marblecleaning.org/knowledgebase/article.php?id=1198>

Good morning. I have an uba tuba counter which has an ash gray like stain in it. I tried peroxide, peroxide and vinegar, while it lifted it a bit, it did not remove it. I don't know what caused it. Any suggestions? Thank you.

Dear Marie:

â€œash gray like stain in it. â€•

I never even heard of such a stainâ€¦ Was it always there, or did it happen sometime afterwards?

Send me a couple of pictures so that I can try to figure out what this mysterious stain is all about.

In the meantimeâ€¦

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
