I am looking for a cleaner for my blanco granite (black) kitchen sink. I have been reading about this cleaner style: MB05. Is this an appropriate choice for my needs? Thank you

Dear Tracy:

Just to set the record straight, Blanco is the name of a manufacturer of sinks made out of engineered stone, which is basically manmade material. That duly said, since 80% of the material is natural stone (powder), yes, the product that you mentioned will be just perfect for the purpose.

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>?

Ciao and good luck,

Maurizio Bertoli
