Dear Maurizio. These slabs come from Northern India, they are white, similar to Carrara. sizes are between 2'x2.5' and 3'x 5'. 2" thick, polished finish and engraved with names and dates. Exposed to sun and rain. What's the best way to preserve and maintain them?

Dear Hermann:

Put them under a glass cupola or somethingâ€¦ J

There's no way to protect polished marble exposed to the weather.
