---

i got thomsons water sealer on bluestone. it left the stone looking blotchy and wet. how can i remove the water sealer from the stone to get it's original dull, dry finish back?

Dear Eric:

I have no familiarity at all with the product that you used on your bluestone. For all I know it's a product to seal wood.

Your best bet is to contact the customer service of that company and ask for advice on how to remove their product.

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm> ?

Ciao and good luck,

Maurizio Bertoli
