

Basaltina Countertop

Authored by: **Maurizio Bertoli** [mailto:mail@mbstone.com]

Saved From: <https://marblecleaning.org/knowledgebase/article.php?id=1460>

Ciao Maurizio. I have Basaltina in my kitchen counter. It has been sealed but is still getting stained (oil, wine). What can you recommend for maintenance. A daily cleaning product. Should I reseal it? Thank you, Alicia
PS: I know it should not have been installed as kitchen countertop. Too late.

Dear Alicia:

• Should I reseal it? •

You'd better believe it! Keep using the same impregnator that was originally applied until you finish the job. Do read the free article on a good sealing job that's available at: http://www.mbstone.com/HH_promo/helpful_hints.htm

• What can you recommend for maintenance. A daily cleaning product. •

A good spray cleaner rated for stone like MB-5 is what you need on a routine basis. Every now and then, something more heavy duty like MB-2 is also recommended.

• PS: I know it should not have been installed as kitchen countertop. •
