Is it ok to steam clean a marble floor? Will it damage the sealer?

Dear Amanda:

• Will it damage the sealer? • What sealer??...

Marble is polished mechanically, by abrasion and friction, not by slapping a sealer onto it.

If you use the right solution of water and a stone floor cleaner like MB-1, you will have no problems.

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm> ? :-)

Ciao and good luck,
