---

Q. How do I super clean marble tile in shower?

A. I would like to recommend that you download the [Stone Care Guide](#). It is a comprehensive guide that will provide the answers you are looking for.

Here are Do's and Don'ts for you:

DO Spritz a little MB Stonecare MB5 on your shower walls daily after everyone has showered for the day and wipe with a squeegee.

DO Use MB Stonecare MB3 Soap Film Remover if soap film has become a problem.

DO Use MB Stonecare MB 9 Mildew Stain Remover if mildew stains exist.

DON'T Use any product not designated safe for natural stone. Bathroom cleaners are notorious for damaging natural stone.
