

Removal of Granite Counters

Authored by: **Maurizio Bertoli** [mailto:mbstone.com]

Saved From: <https://marblecleaning.org/knowledgebase/article.php?id=169>

Dear Maurizio: We are rebuilding our house and would like to salvage our granite counter tops and cabinets for a laundry room. The granite is applied directly to the cabinets with silicone. The corner looks like it has been epoxied together. What is the best way to salvage the counters and cabinets?

Dear Doug:

The best way is to call a proficient stone fabricator and let the professionals do the work!

It is a job that, no matter what, has its share of risk. It is certainly not a DIY project.

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm> ? :-)

Ciao and good luck,

Maurizio Bertoli
