---

Q. I was wondering what inexpensive product I could use on an Italian marble tile kitchen floor that will make it glow and shine that will not damage it now nor in the long run. I appreciate your advice and thank you in advance.

A. First, I'm going to recommend that you download the [Stone Care Guide](#). It will arm you with everything you need to know.

Most importantly, keep the floor clear from any debris. Use a good quality stone safe (pH neutral) cleaner such as [MB Stonecare MB-1](#). Clean up spills quickly.
