---

Q.I have a 4x4 tumbled travertine shower stall (actually the bottom 4 foot is porcelain. I'm confused about sealing. Understanding that I do not need to seal the tile itself, do I need to seal the grout?

A.Hello-It can be confusing for sure.When you think about it though what stains will you get in the shower stall.I think if you use proper cleaning procedures you will be fine.

Go to our website [www.stoneshine.com](http://www.stoneshine.com) and print out a free care guide for free that will educate you on your stone.
