---

Q. How can I clean soap scum and hard water stains from my natural slate tile shower walls? The slate has been sealed and I am worried about ruining my tile.

A. It will be hard to clean those deposits off the natural slate. The features and cleavage on the face of the stone will make it difficult to clean.

It would be advisable to hire a pro to do this job.

You can find one at [www.stoneandtilepros.com](http://www.stoneandtilepros.com)
