---

Q.hi was wondering if you could help me by giving me a few tips on how to get rid of rust stains on an old marble lamp i have. i took it to pieces to clean it as there is brass between the marble ive got some brass cleaner to clean the brass but im not sur what to use to get rid of the rust stains. its not a shiny marble its more of a course marble and i think i might need to use something delicate. please help me. thankyou  
A.Hello- There are some products you could use but they either require some practice or are acidic and shouldnt be used on marble.check out the products for rust at alpha tools oakland new jersey.
