---

Q. how to restore initial luster on an already vertically installed marble without using waxing. the marble has a dull finish. you can polish floor tiles easy but how can you do that vertically.

A. Are you a PRO? If you are, Klindex Italy, among others, makes a machine suitable for honing and polishing walls.

If you are a homeowner, looking for how to get this done, you need a pro. Visit the Find a PRO section at [www.stoneandtilepros.com](http://www.stoneandtilepros.com) to locate one in your area. This is the type of job most stone restoration contractors do routinely.
