What would you recommend to use to make my stone patio not dull looking? The stone needs new life. I like the shiny look. It is a big area. Do you sell commercial sizes? thank you

Dear Susan:

I'm truly flattered, but I have to admit that you're giving me too much credit! Unfortunately I'm not clever enough to guess what kind of stone you have, how it was originally finished, how long ago it was installed, and what does it look now. The only thing you're saying that you would like your stone patio look shiny! Nothing else!

I'm afraid I need more input than that if you want me to give your options. J

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
