We have natural slate in our shower and I have a couple of questions. 1) what should I use to clean it with and 2) is it harsh on skin?? The bottoms of my feet are really rough and dry and I only started having this problem when we moved into the house and using the shower... my husband is having the same issue. Any ideas??

Dear Brena:

1. By logging into the Helpful Hints section of our website at: <http://www.marblecleaning.org/helpful-hints.htm> , you will be able to get the short version of our maintenance guidelines at no charge. The full version of it â€” a 7-page document considered by many as an industry benchmark â€” is available in pay-per-download format in our Educational Literature section at: <http://www.marblecleaning.org/literature.htm> .

And remember, every single penny of the cost of the literature will be used to support this site and its cause: **your** cause.

While you are in the â€œHelpful Hintsâ€” section, do spend some time reading all of the interesting FREE articles you'll find in there!

2. You could consider hiring a bona fide stone restoration contractor and slightly ground the sharp edged of you floor tiles

Finally, keep in mind that we need your support to help us helping you!
