Saved From: <https://marblecleaning.org/knowledgebase/article.php?id=22>

we are having Uba Tuba installed and noticed the demi bullnose edges are duller than the top. They are also lighter in color. Can you tell me what the problem might be so we can approach the fabricator about the problem? Thank you so much for your help...karen moore

Dear Karen:

Problem?... That's not a problem: simply put the fabricator did a poor job at polishing the edges. If it is not polish to the max, not only will it look dull, but it will not achieved the appropriate depth of color, as well.

Demand the fabricator to finish the job to your satisfaction.

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm> ? :-)

Ciao and good luck,

Mauri z io Bertoli
