

Travertine marble urine stain in bathroom

Authored by: **Maurizio Bertoli** [mailto:mbstone.com]

Saved From: <https://marblecleaning.org/knowledgebase/article.php?id=258>

Hi, my elderly father leaked some urine on our 18 " travertine marble floor, and we didn't notice until the "spots" look like water droplets but won't come out of the floor. What can we do to remove them? I have tried a product from the tile installers called Mira Clean #1, but it did not work one bit. I hope you have some help for me, I really like your site info, wish I had read it before I chose this type of flooring near a toilet, Sincerely, Marian

Dear Marian:

You're not thinking of getting rid of your father, are you?!... LOL

Joking aside, the good news is that's no big deal. MB-11 is "your man".

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
[? :-\)](#)

Ciao and good luck,

Maurizio Bertoli
