Hi, I wonder if you can help me, My black granite flooring always have a Sticky feeling. I only use clean water for the mopping. What is the best way to remove the sticky feeling. thanks

Dear Eric:

And since when water alone is a decent cleaner?...

Considering that's sticky, by now you need to hit your floor pretty hard with a heavy duty cleaner for stone like MB-2.

After that, the routine use of MB-1 will take it from there.
