---

How do you clean white marble chip landscaping stones after debris from grass and leaves have been on them?

I would let the rain and the sun do the job for me... It works all the time! :-)

Using powerful specialty cleaner like MB-9 to powerwash your rocks may work, but while safe on stone, there's no way of telling what kind of damage the chemical may cause to the top soil surrounding and underneath the stones.

Just not worth the gamble.

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
