---

We have granite countertops in our kitchen and bathrooms. in the kitchen we are having a problem with hard water build up around the faucet. What can we do to get rid of the build up?

Dear Nichole:

I wish that every question was so easy to answer to!...

Remove the worst with a razor blade and then finish the job with a soap film and mineral deposit remover rated "for natural stone" like MB-3

Easy enough for you?... :-)

May I ask you now to please read and e-sign our Statement of Purpose at: [http://www.marblecleaning.org/purpose.htm?\\_J](http://www.marblecleaning.org/purpose.htm?_J)

Ciao and good luck,

Maurizio Bertoli
