

stone on walls

Authored by: **Maurizio Bertoli** [mailto:mbstone.com]

Saved From: <https://marblecleaning.org/knowledgebase/article.php?id=393>

i have installed stone in my basement as a decorative wall , do i need to seal it with a color enhance sealer , what do you recomend

Dear Bryan:

• do i need to seal it with a color enhance sealer •

Are you asking me?...

What I mean is that, of course, you don't certainly need to apply an impregnator (a.k.a. sealer) to a wall; you're not planning to deliberately and systematically rub coffee grounds or cooking oil to it, are you?...

Now, if you want to deepen (enhance) the color of your stone, then it's a different matter that involves your personal taste. Therefore, you're the only one that can answer your question. J

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm> ? J

Ciao and good luck,

Maurizio Bertoli
