hi, I have three young boys who occasionally have trouble aiming when they are going to the bathroom..Subsequently I have a urin stain in the grout near the base of the toilet. can you recommend a product that will remove the stain? thanks julie

Dear Julie:

The best thing to do is to get rid of the boys!... Hmm... Somehow I doubt that you're gonna do that!... :-)

Soak the grout lines with with a mildew stain remover like MB-9. I know, you don't have any mildew; however MB-9 is a powerful cleaner with a percentage of Sodium Hypochlorite and it will do the trick without affecting the marble tiles.

May I ask you now to please read and e-sign our Statement of Purpose at:
