

Travertine Shower ruined

Authored by: **Maurizio Bertoli** [mailto:mbstone.com]

Saved From: <https://marblecleaning.org/knowledgebase/article.php?id=45>

I am a cleaning lady who justg ruined a beautiful Travertine marble shower by using soft scrub spray all over it (Floor Walls). I let it sit for 30 minutes before I scrubed with a brush (I just blanked out- I know not to use soft scrub on natural stone). My customer called me freaked a couple days later. I am sick about this. she says it looked like bleach everywhere I sprayed. Should I try your MB-11 before calling in the professionals stone people?

Dear Alice:

My record on this and other forums proves that I have a... soft spot for cleaning professionals. (Ladies and not... LOL) And of course I would love to be able to tell you that there could be hope with MB-11. But you don't need no lies, do you?... :-)

Unfortunately, your only option is to hire a proficient stone restoration professional.

Go to www.stoneandtilepros.com and click on the Find a Pro tab to locate a restoration contractor in your area.

May I ask you now to please read our Statement of Purpose that you can find at:
<http://www.marblecleaning.org/purpose.htm?>

Ciao and good luck,

Maurizio Bertoli
