---

Hi Maurizio, I want to buy a tumbled marble patio table with a resin seal of some type but I cannot store it inside in the winter when temperatures can drop to freezing. I live in Baltimore, Maryland. Is it safe to get a table like this or do I risk it cracking even if it is covered?

Dear Adrienne:

No you won't be risking for a table like that to crack: it's almost a sure thing that it will!!

Translation: don't even think about it!!

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
