have you heard of granite by the name of Lapius? I've never seen it on your site. Did the white vinegar test on it and no stains? Thanks

Dear Keith:

I reckon you mean *Lapidus* "granite".

Yes, I've heard of it.

And no, I did not run any test on it: I don't intend to buy it and therefore I have no reason to run a test on a specific slab of something that I'm **not** interested in purchasing... J

Which brings us to the real question: why don't you run that test yourself on the very slab that you're considering, or at least a piece of scrap from a slab from the same batch?...

And BTW, have you picked your fabricator yet?

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
? J

Ciao and good luck,

Maurizio Bertoli
