---

How do I get rid of water marks/limescale in a limestone sink. Each time, the water is run an orangey ring is formed around the sink. is there anything I can do to prevent it? Thanks

Dear Nita:

To remove the water marks and lime scale use sandpaper.

To eliminate the problem of the orange ring, remove the sink!

Let's be realistic, shall we? A sink made of limestone?!... It may be fashionable and very pretty to look at, too; but that doesn't mean that you're supposed to use it!!... L

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
