

SLABS IN SHOWER STALL

Authored by: **Maurizio Bertoli** [mailto:mail@mbstone.com]

Saved From: <https://marblecleaning.org/knowledgebase/article.php?id=60>

I love your site! I was convinced that "hard" "nonporous" granite would be my best choice in a shower. After reading your site, I will now consider marble and travertine. My question: Is it ok to buy slabs for shower walls, rather than tiles? (I hate grout.) Thank you. Linda

Dear Linda:

Not only is it quite alright to install slabs instead of tiles, but is highly recommended, as well! The main reason why it's not so popular is because not everybody can afford to do that... :-)

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
