

# White marks around faucet on Uba Tuba

Authored by: **Maurizio Bertoli** [mailto:[mail@mbstone.com](mailto:mail@mbstone.com)]

Saved From: <https://marblecleaning.org/knowledgebase/article.php?id=600>

---

We just moved into a home with Uba Tuba kitchen countertops. There are white marks around the faucet area that may be from water or soap or a combination of the two. What is the best way to remove them and what can we do to best prevent more in the future Thank you.

Dear Karen:

Remove the worst with a razor blade (no, it will not scratch your stone) and then finish the job with MB-3.

" what can we do to best prevent more in the future"

Stop using your faucets!!... :-) :-)

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
