Can MB-3 be used to remove soap scum on a glass shower door? Can MB-3 scratch or etch the glass if not used properly?

Dear Ken:

" Can MB-3 be used to remove soap scum on a glass shower door?"

Of course it can.

" Can MB-3 scratch or etch the glass if not used properly?"

MB-3 is designed to be effective and at the same time delicate enough not to etch or scratch marble. How could it possibly scratch or etch glass, which is so much harder than marble and so much more acid-resistant?... :-)
