---

We have a new bathroom counter top made from granite and it already as some limescale build up around the faucet. How do we safely get rid of the limescale? Thanks, John

Dear John:

Remove the worst with a razor blade (no, it won't scratch the granite) and then finish the job with MB-3.

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
