Hello Maurizio; As a design professional who is selling travertine like it was just invented...hahaha...please give me your expert opinion on tumbled travertine for use in a STEAM shower (walls only). The steam shower concept is just now hitting the midwest, and I am not familiar with the pros and cons. Can you help? Thanks so much!

Dear Leslie:

As long as you fill the holes, tumbled travertine in a steam shower stall is as maintenance-free as they come!

Providing that the installation is done right, that is.

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
