---

hi maurizio we are looking to lay a limestone floor 85 sqm one room. we wanted a honed finish can you recommend which type would be the most hardwearing, we were looking at moleanos beige!

Dear Phillip:

I did some search but came up empty handed. I have no idea about this Moleanos limestone; therefore I can't comment on its suitability.

The only thing I can say is that - with a few exceptions (and I do mean, **few**!) - I dislike limestone as flooring material with all my heart! They are too much of a gamble.

If you like a hone-finished stone floor why don't you look into hone-finished marble? There are lots of color available and, generally speaking, it's a much better stone than limestone.

May I ask you now to please read and e-sign our Statement of Purpose at: [http://www.marblecleaning.org/purpose.htm?\\_:-\)](http://www.marblecleaning.org/purpose.htm?_:-))

Ciao and good luck,

Maurizio Bertoli
