---

I would like to put some sort of finish on my tumbled travertine kitchen counters to make them easier to clean--crumbs get stuck in the divots, water pools in the grout lines, and the counter never looks as clean as I would like. The tiles are about 3x3 inches so there are LOTS of grout lines. Any suggestions?

Dear Anne: Are you implying that you did not fill the holes in the travertine??â€! In a kitchen???â€! And then all those grout lines??â€! Whoa!!

A countertop like that is just for looks, not to be actually used!

Unfortunately there's no â€œfinishâ€• that you could put onto the stone to help you with your problem.

Ciao and good luck,

Maurizio Bertoli
