I have a new bathroom with Jerusalem stone floors, countertops, and shower walls. Hopefully the tiles were sealed correctly. Which products do I need to keep my bathroom looking clean and beautiful.

Dear Susan:

If they sealed the inside of the shower stall, that was not the “correct” sealing to do: it is never a good idea to seal stone in a wet environment.

Not to mention that instead of being concerned about the sealing of the stone, you should have been much more concerned about the way it was installed! No-sealing will never create any real maintenance problems “a poor installation **will**, and with no solution to boot!

That said, let's not be pessimistic and let's hope that the installation was done properly.

As it should be intuitive, the routine cleaning of your stone is far more important than the sealing. By logging into the Helpful Hints section of our website at: http://www.mbstone.com/HH_promo/helpful_hints.htm, you will be able to get the short version of our maintenance guidelines at no charge. The full version of it “a 7-page document considered by many as an industry benchmark” is available in pay-per-download format in our Educational Literature section at: <http://www.mbstone.com/literature/literature.htm>.

And remember, every single penny of the cost of the literature will be used to support this site and its cause: **your** cause.

While you are in the “Helpful Hints” section, do spend some time reading all of the interesting FREE articles you'll find in there!

Finally, keep in mind that we need your support to help us helping you!

Will you please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm?>

By spreading the word about this valuable site among your friend & family and the stone trades' people you've been dealing with, you will be rendering everybody a valuable service!

Thank you

Ciao and good luck,

Maurizio Bertoli
