I put a burnt pot directly onto my shiny marble counter, although the shine was not damaged the pot has left a white area where the pot rested. Can this be removed at all?

Dear Julie:

Polished marble in a kitchen, huhâ€¦ L

It's time to consult with a good restoration contractor to see what can be done about the damage you have now. If you don't know anybody, I can find one for you (a former student of mine) for you in New Zealand .

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>
?

Ciao and good luck,
