I have a 10 month old kitchen floor with 1/2 in dark tan grout that the dog has urinated on. How do I get the stain and odor out. Mostly interested in the discoloration

Dear Byron:

As for the odor issue, they sell effective odor eliminating products at most pet stores and hospitals.

About the discoloration, the risk of trying to use stain removal techniques may lead to bleaching of the grout. I therefore believe that the best course of action is to scrape 3/16" or so of the stained grout and apply some new one on top of it.

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>?

Ciao and good luck,
