PLEASE I WORK IN A HOTEL. OUR BAR HAS BLACK MARBLE COUNTERTOP. BECAUSE OF THE LOCATION ITS ALWAYS STIAN . CAN WE SEAL AND ENHANCE IT FOR ITS BEAUTY TO LAST. WHICH OF YOUR PRODUCTS DO YOU RECOMMEND?

Dear Alex:

There's no product "mine or otherwise" that I could possibly recommend. When the wrong stone is specified for the wrong application, it is the end of the discussion. L

In fact, if there were any solution to the problem, the wrong stone wouldn't be wrong, after all!

The best course of action (correction: the **only** course of action) to sensibly solve the problem, this side of ripping out the whole thing and charge the specifier for that, is to have it professionally restored, and then, before starting using it again, have a sheet of glass custom cut to cover every single square inch of it. That is the only "sealer" that will ever work!

May I ask you now to please read and e-sign our Statement of Purpose at: <http://www.marblecleaning.org/purpose.htm>?

Ciao and good luck,

Maurizio Bertoli
